Professional Summary

Data-driven MBA graduate specializing in AI/ML with hands-on experience in business intelligence, data visualization, and predictive analytics. Proficient in Python, SQL, Power BI, and Tableau. Proven ability to translate complex datasets into actionable insights that drive strategic decision-making. Eager to contribute to large-scale, data-intensive products.

Education

Vijay Patil School of Management, DY Patil University — Mumbai, India
MBA – Artificial Intelligence & Machine Learning — *2024 – 2026*
- CGPA: 8.75 / 10

DAV College, Sector 10, Chandigarh – Panjab University — Chandigarh, India
Bachelor of Computer Applications (BCA) — *2020 – 2023*
- Aggregate: 73%

Experience

Ryder Shipping Lines — Mumbai, India
Data Analytics Intern — *May 2025 – July 2025*
- Designed and deployed AI-powered Power BI dashboards for real-time freight pricing trend analysis, enabling leadership to identify cost optimization opportunities across 3+ shipping routes.
- Engineered end-to-end data pipelines in Excel and Power Query to clean, transform, and consolidate large operational datasets, reducing manual reporting time by ∼40%.
- Authored comprehensive data analysis reports with interactive visualizations; findings directly informed quarterly pricing and procurement decisions at the executive level.
- Collaborated cross-functionally with operations and finance teams to define KPIs and translate business requirements into measurable dashboard metrics.

Projects

Motorola Mobile Sales Analytics | *Power BI, DAX, Data Modeling, Data Visualization* — 2026
- Built an interactive Power BI dashboard analyzing 769M in total sales, 19K units, and 4K transactions across 5 brands (Xiaomi, Vivo, OnePlus, Samsung, Apple) and 15+ Indian cities.
- Developed DAX measures and calculated KPIs to track revenue, quantity trends, and customer ratings; visualized insights via geo-maps, line charts, bar and pie charts.
- Implemented dynamic slicers for Mobile Model, Brand, Payment Method, and Day Name enabling drill-down analysis across UPI, Debit Card, Cash, and Credit Card transaction segments.
- Delivered day-wise and month-wise sales trends with interactive filters to support data-driven regional sales strategy decisions.

Spotify User Engagement Dashboard | *Power BI, DAX, Data Visualization* — 2026
- Built an interactive Power BI dashboard analyzing Spotify listening behavior across 100K+ data points; implemented advanced DAX measures and drill-through filters to surface user engagement trends and peak-activity windows.

Technical Skills

Languages & Databases: Python (NumPy, Pandas, Matplotlib, Scikit-learn), MySQL
BI & Visualization: Power BI (DAX), Tableau, Microsoft Excel (PivotTables, Power Query)
AI / ML: Deep Learning, Supervised & Unsupervised Learning, Feature Engineering
Other Tools: Microsoft Office Suite (Word, PowerPoint, Outlook), Web Development (HTML/CSS)
Soft Skills: Data Storytelling, Stakeholder Communication, Project Management, Cross-functional Collaboration

Certifications

Python Pro Bootcamp | *Udemy* — 2024
Professional Diploma in Project Management | *Udemy* — 2024
Python for Data Science | *Udemy* — 2025
MySQL – Complete Course | *Udemy* — 2025

Achievements & Leadership

Event Management Team Member | **VPSM, DY Patil University:** Co-ordinated college-wide events managing logistics, scheduling, and inter-team communications for audiences of 200+ attendees, consistently achieving high satisfaction scores.

Awards: Movie Making Competition Winner | VPSM Cricket Tournament Finalist
